The global metal fabrication market is anticipated to expand at a CAGR of around 4% during the forecast period, 2020 – 2026. Increasing demand for metal processing and machining in the emerging economies is expected to drive the market growth.

Developing economies, such as India, China, and Indonesia, among others, along with industrialized countries, such as Japan and South Korea, have assisted the Asia-Pacific (APAC) region to dominate the manufacturing industry, in terms of demand, particularly with the demand for metal fabrication equipment.

In terms of value, the Asia-Pacific market is expected to register a CAGR of 6.7% between 2018 and 2024. Moreover, the increasing demand for metal cutting equipment is expected to increase the demand for metal fabrication equipment over the next few years.

By 2024, the Asia-Pacific market is expected to register a compound annual growth rate **(CAGR) of 6.7%** in terms of value. Moreover, increasing demand for metal cutting equipment may lead to increased demand for metal fabrication equipment over the next few years.

The Indian Metal Treatment Chemical Market is projected
to reach **USD 378.4 million by 2023**

India's Industrial Laser Market is likely to reach
INR 18.18 trillion by 2026 at a CAGR of 18.2%

India Industrial Robotics Market CAGR is expected to be 13% during the forecast period and the market size is expected to reach nearly **US\$ 9.02 Bn. by 2027**

UMEX has been well connected to the European market through its partnerships and has delivered successful shows. Hyve India Private Limited in co-operation with MTI (Machinery Trade International), an international magazine on pre-owned machines, are once again all set to bringing together leading players of the industry from across the globe.

The event has already seen 16 successful editions and is primarily targeted at machine-tool, metalworking, construction, paper manufacturing, textile, and printing industries. It is designed to provide a consistent channel of communication to members of these industries by bringing them together under one roof to share their knowledge and expertise with fellow industry members during discussions on the latest products and technology, market trends, policies, codes and standards facing these industries today.
